ACAA Category U (Utility) Membership Dues Calculation Worksheet							
Example MegaWatt Calculation							
Station/Plant Name	Location (Citv & State)	Coal-fired Total Net MegaWatts	Applicant's Percent Ownership	Net MegaWatt Owned			
Plant A	Somewhere, IL	1751	100.0%	1751			
Plant B	Somewhere Else, IL	450	13.8%	62			
Plant C	New Place, MO	275	51.0%	140			
			Total:	1953			
Your MegaWatt Calculations							
Station/Plant Name	Location (Citv & State)	Coal-fired Total Net MegaWatts	Applicant's Percent Ownership	Net MegaWatt Owned			

## **Dues Calculation:**

ACAA Category U (Utility) membership dues are calculated based on the total number of applicant's owned coal-fired megawatts multiplied by \$4.00. Minimum dues levels are \$3,300. 1st year prorated/discounted dues regardless of prorated period cannot be less than this amount. Subsequent year's dues equal owned, coal-fired megawatts times \$4.00 (\$15,000 max) or as calculated but no less than \$3,300.

1st Year Dues Calculation:						
Net MW Owned	/12 = per Month	X Months Prorated	= Calculated	Date, amount and form of		
X \$4.00*		or 12 whichever is less	1st Year Dues*	first year's dues payments		
\$	\$	\$	\$			

\* If greater than \$15,000, enter \$15,000
